89x89 ND 2F BB

The technical drawing shows two versions of the 89x89 ND 2F BB corner unit. On the left is a large L-shaped unit with a depth of 89 cm. It features a flat top surface and a front panel with a horizontal line and a small rectangular detail. On the right is a smaller version of the same unit, also L-shaped, with a depth of 44 cm. It has a similar design with a flat top and a front panel with a horizontal line and a small rectangular detail.
